

Glorb broom — power bus-bar map (one 14-tube SIDE board (2×4))

V (+) & G (-) off each female pigtail (22 AWG), run under the 2×4 between tubes · direct spades centered (shortest) · a WAGO pair at each end.

■ + / - bus bar (10 terminals each)

■ 2-pin WAGO = 1 tube → 1 terminal (×1)

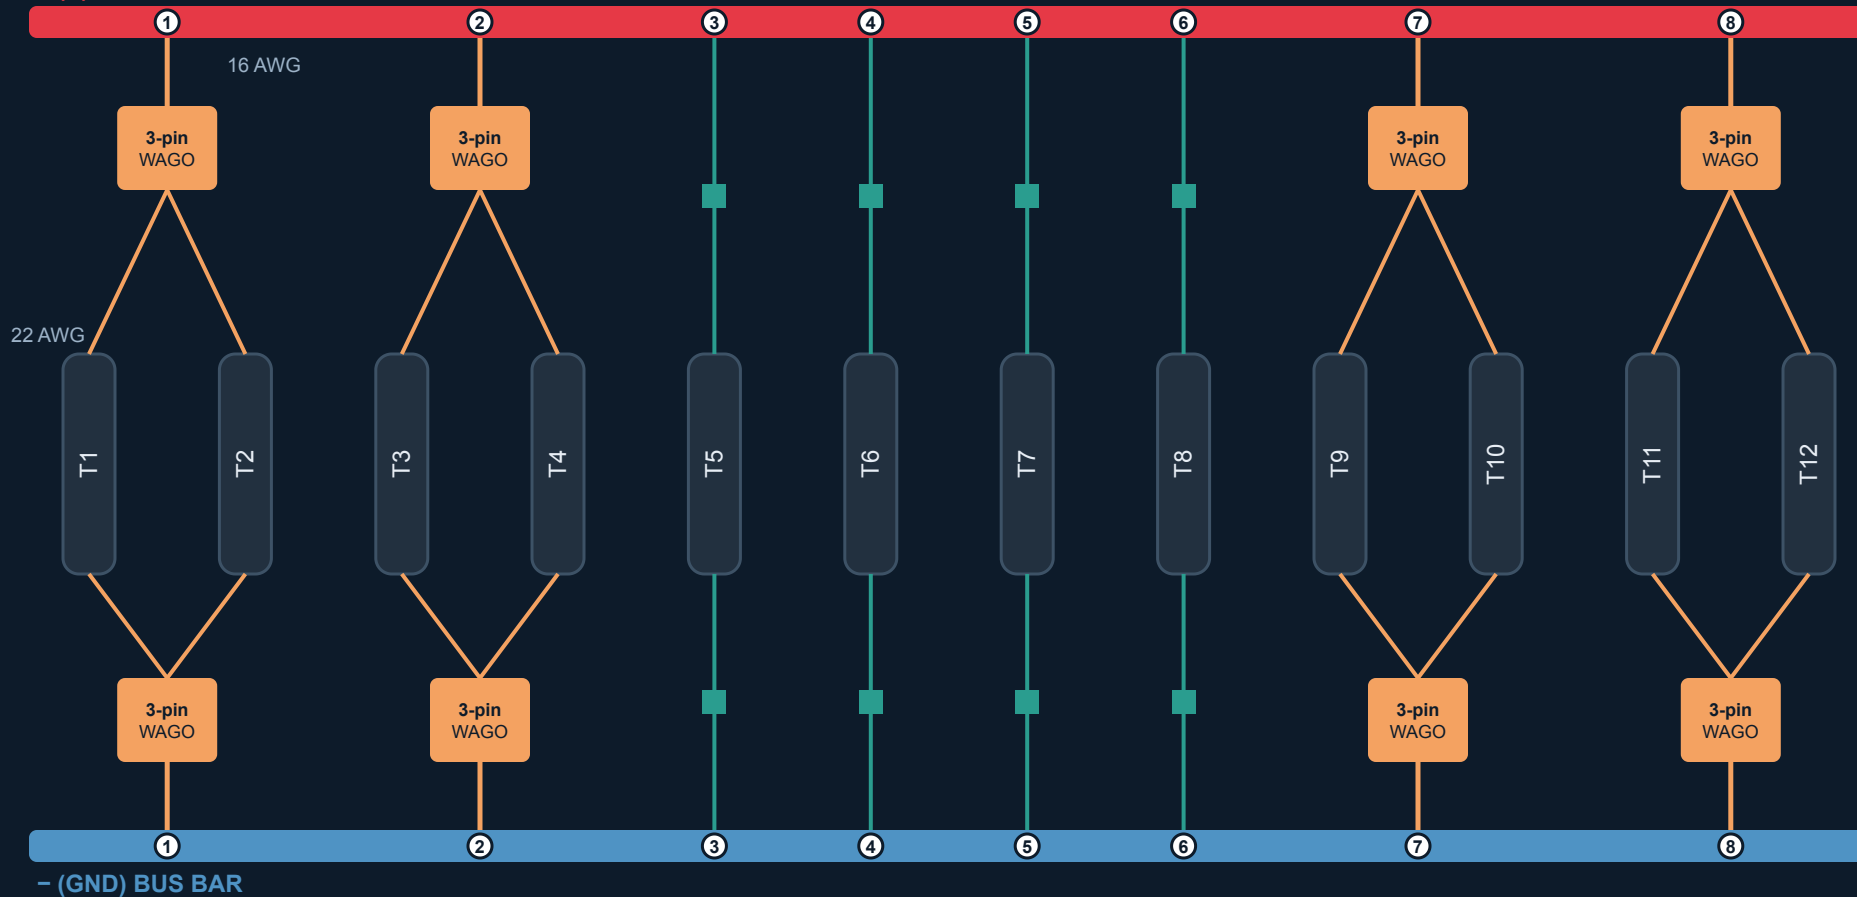

■ 3-pin WAGO = 2 tubes → 1 terminal (×4)

■ #8 spade = 1 tube direct → terminal (×5)

14 tubes × (V + G) → two 10-terminal bus bars. One board = one 2×4 · side boards 14 tubes · back boards 12.

Glorb broom — power bus-bar map (one 12-tube BACK board (2×4))

V (+) & G (-) off each female pigtail (22 AWG), run under the 2×4 between tubes · direct spades centered (shortest) · a WAGO pair at each end.

■ + / - bus bar (8 terminals each)

■ 3-pin WAGO = 2 tubes → 1 terminal (×4)

■ #8 spade = 1 tube direct → terminal (×4)

12 tubes × (V + G) → two 8-terminal bus bars. One board = one 2×4 · side boards 14 tubes · back boards 12.
